Karen L. Hackett, FACHE, CAE Chief Executive Officer American Academy of Orthopaedic Surgeons 6300 North River Road Rosemont, IL 60018

Dear Ms. Hackett:

In December 2009, I asked for an accounting of industry funding that American Academy of Orthopaedic Surgeons (AAOS) receives from pharmaceutical and medical device companies as well as foundations established by these companies or the insurance industry. I appreciate your response, which I have attached to this letter. I write today to follow up on any efforts by your organization to improve transparency and accountability in its relationships with the pharmaceutical and device industries.

As I stated in my previous letter, I started my inquiry, in part, as a result of accounts documenting the lack of transparency in financial relationships between the pharmaceutical industry and nonprofit health and medical organizations. Specifically, I cited the April 2008 article in *The Wall Street Journal*, which reported that industry representatives, including ten major drug companies, had formed a coalition to promote looser restrictions on off-label marketing. The coalition had asked the National Alliance on Mental Illness (NAMI) to speak in favor of this issue.

In response to my concerns in my April 2009 letter to NAMI, NAMI began to voluntarily disclose to the public any amount of funding exceeding \$5,000 that it received from pharmaceutical companies and foundations on its website. Further, NAMI began to provide a brief description of the purpose of the funding on its website. I commend NAMI for its leadership and had hoped that when I reached out to your organization and 32 others, your organization would follow NAMI's example and begin posting similar funding information on AAOS's website.

As of the date of this letter, it appears that your organization has taken steps to identify on its website the corporate or industry sponsors and their range of funding support. However, the

¹ Alicia Mundy, "Off-Label Use of Drugs Gets a Push --- Big Pharma Lobbies Washington to Relax Rules on Marketing," *The Wall Street Journal*, April 18, 2008.

website does not specify the purposes of that funding. If AAOS is currently taking steps to further enhance the transparency of its financial relationships with the pharmaceutical and device industries, I would appreciate information regarding those steps. In particular, please state whether or not AAOS will be adding information in the future about the purpose of the funding it receives. If not, please explain why not.

The Medicare Payment Advisory Commission (MedPAC) recommended in a report to Congress in March 2009 that Congress require that pharmaceutical and device companies report their financial relationships with physician groups, patient organizations, and others. More specifically MedPAC said the following:

Given the potential benefits of public reporting, we recommend that the Congress mandate the reporting of comprehensive information on industry relationships with physicians and other health care entities and that the Secretary post this information on a public searchable website.²

MedPAC then went on to say in Recommendation 5-1 that:

The Congress should require all manufacturers and distributors of drugs, biologicals, medical devices, and medical supplies (and their subsidiaries) to report to the Secretary their financial relationship with:...physician groups and other prescribers...patient organizations; and professional organizations.³

I look forward to working with you and other health and medical organizations to further increase sunshine on financial relationships.

Thank you for your cooperation and attention in this matter. I would appreciate a response by May 25, 2011. If you have any questions, please do not hesitate to contact Brian Downey for the Committee on the Judiciary at (202) 224-5225.

Sincerely,

Charles E. Grassley Ranking Member

Church Shareley

Senator Charles Grassley Ranking Member Senate Finance Committee Washington, D.C. 20510-400

Dear Senator Grassley:

On behalf of the American Academy of Orthopaedic Surgeons (AAOS), I am writing in response to your correspondence of December 7, 2009, regarding industry funding for Continuing Medical Education, as well as AAOS policies for accepting industry funding and disclosure requirements for top executives and board members.

In accordance with further direction provided by your staff, Brian Downey, this AAOS response does not include those materials previously provided to you and Senator Kohl by correspondence dated July 28, 2009. Mr. Downey advised that AAOS only needed to provide an accounting of funding received from insurance companies.

After performing an exhaustive search of our financial records, it has been determined that AAOS received only a \$50,000 grant from Wellpoint, Inc. to specifically assist with the development with a patient data registry. See Attachment 1. None of these funds have been used in connection with continuing medical education programming. No other insurance funding has been received by AAOS through July 28, 2009.¹

Established in concept by the AAOS in March 2009, the American Joint Replacement Registry's mission is to:

Foster a national center for data collection and research on total hip and knee replacement with far-reaching benefits to society including reduced morbidity and mortality, improved patient safety, improved quality of care and medical decision-making, reduced medical spending, and advances in orthopaedic science and bioengineering.

Bone and Joint-DECADE

Since July 28, 2009, AAOS has received a \$15,000 grant from Blue Cross Blue Shield also for development of a joint replacement registry

CHIEF EXECUTIVE OFFICER (Ex-Officio) Kareu L. Hackett, FACHE, CAE Rosemont, Illinois www.ajrr.net. Additional information on the American Joint Replacement Registry is enclosed at Attachment 2.

In July, 2009, the AAOS Board of Directors empanelled a Conflict of Interest Project Team to evaluate the AAOS policies on conflict of interest and disclosure of those conflicts. The Project Team made a series of recommendations for greater transparency, including, but not limited to:

- Acknowledgement of commercial supporters of AAOS within the public pages of the AAOS website;
- Post on the AAOS website the revised AAOS Conflict of Interest Policies and the new AAOS Guidelines for Active Management of Conflict of Interest for AAOS Board of Directors and Leadership Positions; and
- Provide public access to the AAOS Orthopaedic Surgeons Mandatory
 Disclosure Database, into which all volunteers, leaders and executives must
 disclose conflicts.

These Project Team recommendations were approved by the Board of Directors at its December 2009 meeting and are in various stages of implementation by AAOS staff. Nonetheless, many of the changes are expected to be operational by the March 2010 AAOS Annual Meeting in New Orleans, Louisiana.

Finally, the AAOS Board of Directors' composition has changed slightly since we wrote to you in last July. Dr. David Polly is no longer a member of the Board and Dr. Jeffrey Anglen has joined the Board. Dr. Anglen's curriculum vitae and disclosure form are enclosed as Attachment 3.

If you have any questions or need additional information, please do not hesitate contact me at (847) 384-4042 or hackett@aaos.org.

Very Truly Yours,

Karen L. Hackett, FACHE, CAE

Chief Executive Officer
