Steven C. Anderson, IOM, CAE
President and Chief Executive Officer
National Association of Chain Drug Stores
413 North Lee Street
Alexandria, VA 22314

Dear Mr. Anderson:

In December 2009, I asked for an accounting of industry funding that the National Association of Chain Drug Stores (NACDS) receives from pharmaceutical and medical device companies as well as foundations established by these companies or the insurance industry. I appreciate your response, which I have attached to this letter. I write today to follow up on any efforts by your organization to improve transparency and accountability in its relationships with the pharmaceutical and device industries.

As I stated in my previous letter, I started my inquiry, in part, as a result of accounts documenting the lack of transparency in financial relationships between the pharmaceutical industry and nonprofit health and medical organizations. Specifically, I cited the April 2008 article in *The Wall Street Journal*, which reported that industry representatives, including ten major drug companies, had formed a coalition to promote looser restrictions on off-label marketing.¹ The coalition had asked the National Alliance on Mental Illness (NAMI) to speak in favor of this issue.

In response to my concerns in my April 2009 letter to NAMI, NAMI began to voluntarily disclose to the public any amount of funding exceeding \$5,000 that it received from pharmaceutical companies and foundations on its website. Further, NAMI began to provide a brief description of the purpose of the funding on its website. I commend NAMI for its leadership and had hoped that when I reached out to your organization and 32 others, your organization would follow NAMI's example and begin posting similar funding information on NACDS's website.

As of the date of this letter, it appears that no additional information regarding your organization's industry funding has been posted on the NACDS's website. If NACDS is

¹ Alicia Mundy, "Off-Label Use of Drugs Gets a Push --- Big Pharma Lobbies Washington to Relax Rules on Marketing," *The Wall Street Journal*, April 18, 2008.

currently taking steps to enhance the transparency of its financial relationships with the pharmaceutical and device industries, I would appreciate information regarding those steps. If not, please explain why your organization does not support the disclosure of funding it receives from pharmaceutical and device companies.

The Medicare Payment Advisory Commission (MedPAC) recommended in a report to Congress in March 2009 that Congress require that pharmaceutical and device companies report their financial relationships with physician groups, patient organizations, and others. More specifically MedPAC said the following:

Given the potential benefits of public reporting, we recommend that the Congress mandate the reporting of comprehensive information on industry relationships with physicians and other health care entities and that the Secretary post this information on a public searchable website.²

MedPAC then went on to say in Recommendation 5-1 that:

The Congress should require all manufacturers and distributors of drugs, biologicals, medical devices, and medical supplies (and their subsidiaries) to report to the Secretary their financial relationship with: . . . physician groups and other prescribers . . . patient organizations; and professional organizations.³

I look forward to working with you and other health and medical organizations to further increase sunshine on financial relationships.

Thank you for your cooperation and attention in this matter. I would appreciate a response by May 25, 2011. If you have any questions, please do not hesitate to contact Brian Downey for the Committee on the Judiciary at (202) 224-5225.

Sincerely,

Charles E. Grassley
Ranking Member

NATIONAL ASSOCIATION OF
CHAIN DRUG STORES

CONFIDENTIAL

January 27, 2010

Via Electronic Transmission

The Honorable Charles E. Grassley
Ranking Member
Senate Committee On Finance
Washington, DC 20510-6200

Dear Senator Grassley:

Thank you for your letter of December 7, 2009, in which you requested certain financial data and other information from the National Association of Chain Drug Stores (NACDS). This letter and the attached charts provide the information you requested.

NACDS is an independent organization that has advocated for chain pharmacies for over 75 years. We represent 158 traditional drug stores, supermarkets, and mass merchants with pharmacies – from regional chains with four stores to national companies. Chain pharmacies operate 37,000 pharmacies, and employ more than 2.5 million employees, including 118,000 full-time pharmacists. Our members fill more than 2.5 billion prescriptions annually, which is more than 72 percent of all prescriptions in the United States.

NACDS also has almost 900 associate members. Associate members include pharmacy suppliers such as drug manufacturers, as well as many suppliers of nonmedical products such as cosmetics and greeting cards that are sold in the “front end” of the pharmacy.

It is important to understand that NACDS represents chain pharmacies. Chain pharmacies control the policy making and decision making process at NACDS. Only companies that own or operate chain pharmacies are eligible to elect or serve on the NACDS Board of Directors and the NACDS Policy Council. Companies such as drug manufacturers, medical device manufacturers and insurance companies do not develop or control the policies and positions advocated by NACDS. NACDS collaborates with manufacturers and other suppliers when our policy positions are aligned, and NACDS remains free to disagree with those companies when our positions differ.

The enclosed charts list the financial data you requested, including funds received by NACDS from drug manufacturers, medical device manufacturers, insurance companies and their foundations since January 2006. In an effort to ensure full transparency, we have included in the charts funding received from manufacturers of non-prescription drug products in addition to funding received from prescription drug manufacturers. The number of companies and the amount of funding included in the charts would be significantly smaller if manufacturers of over-the-counter medications were not included.

Fax (703) 836-4869

www.nacds.org

In addition to sponsorships, the enclosed charts include associate member dues payments. Associate member dues are capped at \$9,960 per membership. The charts also include exhibit fees for booths at NACDS conferences. Although your staff indicated that we need not include conference registration fees in the charts, please be advised that the exhibit fees for some NACDS conferences also cover registration to attend the conferences. Attendance and exhibit fees only pay for attendance and exhibit space at NACDS conferences, and do not vary based on the type or size of the company. The number of companies and the total funding listed in the charts would be dramatically smaller if dues, exhibit fees and all attendance fees were not included.

Total sponsorships received by NACDS from all of the companies listed in the enclosed charts constituted less than 4 percent of total revenues received by NACDS since January 2006. Total industry funding (sponsorships, dues and exhibit fees) from these companies constituted less than 17 percent of total NACDS revenues. The figures for 2009 are based on the most recent information available to NACDS.

Your letter also asked NACDS to repeat five questions and provide appropriate answers:

1) Please describe the policies for accepting industry funding and whether or not NACDS allows companies to place restrictions or provide guidance on how funding will be spent.

Answer: NACDS accepts industry funding that can be utilized to advance the interests of chain pharmacies. NACDS does not accept restrictions or guidance regarding industry funding received from drug manufacturers, medical device manufacturers, insurance companies or their foundations.

2) If NACDS allows companies to place restrictions on industry funding, then please explain all restrictions and/or guidance for each transfer of value from industry. For every transfer of value with a restriction, please provide the following information: year of transfer, name of company, and restriction placed on funding.

Answer: No restrictions or guidance were accepted from these companies.

3) Please explain what policies, if any that NACDS plans to adopt to ensure transparency of funding in order to provide a greater public trust in the independence of your organization.

Answer: NACDS is a not-for-profit entity that supports appropriate financial transparency. Every year, NACDS discloses a great deal of financial information in detailed tax forms that are made available to the general public. In addition, sponsorships received by NACDS from outside entities are proudly acknowledged on our website and in NACDS conference materials, educational materials and other public statements. From time to time, as necessary, the NACDS Board of Directors considers its transparency measures and considers any need to enhance these policies.

4) Please explain your policies on disclosure of outside income by your top executives and board members.

Answer: The NACDS Board of Directors has adopted a strict policy designed to disclose potential conflicts of interest. Pursuant to that policy, if outside income of a board member may interfere with or improperly influence the board member's ability to act in the best interests of NACDS, the board member is obligated to disclose that potential conflict of interest. NACDS has adopted a similar conflict of interest policy for executives and other NACDS employees. Pursuant to that policy, if outside income received by an executive or other employee may influence the individual's ability to act in the best interests of NACDS or may otherwise create a potential conflict of interest, the employee has a duty to disclose that potential conflict of interest. In particular, executives and other employees are obligated to disclose outside employment or consulting work that may conflict with their jobs at NACDS.

5) Please provide the disclosures of outside income filed with your organizations by your top executives and board members.

Answer: Because no conflicts of interest are known to exist, disclosures of outside income have not been filed with NACDS by our top executives and board members.

NACDS is proud of our record of independently and transparently representing the interests of chain pharmacies. Please let me know if you have any further questions.

Sincerely,

A handwritten signature in black ink, appearing to read "Steven C. Anderson". The signature is fluid and cursive, with a long horizontal stroke at the end.

Steven C. Anderson, IOM, CAE
President and Chief Executive Officer
