The Honorable Chuck Grassley, Chairman
The Honorable Amy Klobuchar
Committee on the Judiciary
United States Senate

Dear Chairman Grassley and Senator Klobuchar:

The Center for Democracy & Technology commends you for re-introducing the American Innovation and Choice Online Act. This important legislation would help open the concentrated online platform marketplace to increased competition, bringing the prospect of more meaningful options to consumers and to all who seek to reach them online, and spurring wider opportunities for continued innovation.

We note that the bill has been revised significantly from versions of the bill considered in previous Congresses. In general, this reframing improves important aspects of the bill. At the same time, these significant revisions call for a fresh review to ensure that the provisions as now written are clear and workable.

We have already begun undertaking such a review, and look forward to working with you and other Members of the Committee to make appropriate clarifications so that the bill best achieves its important pro-competitive purpose.

With best regards,

George P. Slover
Senior Counsel for Competition Policy

cc: The Honorable Mike Lee
The Honorable Cory Booker
