Tony,

Thanks again for the call back. As I understand it you are all looking at and will continue to work with the DOJ (Bratt) on the "SAP" "spillage" issue.

If you should all come across any issues that you believe my office should be aware of or can assist please reach back out to me or my SAC Waleska McLellan (cc'd).

r/

Jason

GM Brett,

Here is the official PIN response to us after we had that meeting with them last week which we briefed you on. FBI and AUSA Jay Bratt (DOJ-NSD) are handling matter 1 and according to the FBI (who I spoke to last late last week) matter 1 is being handled as a "spillage" which sounded like there is little likelihood of being pursued as a criminal matter.

Matter 1: Classified Records from Mar-a-Lago

Matter 2: Destruction of Presidential Records

Matter 3: Official Presidential Records Not Preserved by Navarro

Thank you for the email, Waleska and Jason. I appreciated you taking the time to discuss these matters in more detail in our virtual meeting this afternoon. Based on the allegations as set forth below and as supplemented by our virtual meeting, Matters 1, 2, and 3 are not matters for which PIN would open a criminal investigation at this time. If you develop additional evidence related to these allegations, especially as to the contents of the underlying documents or any evidence
