The Honorable Alejandro Mayorkas

Mr. Troy A. Miller
Senior Official Performing the Duties of the Commissioner
U.S. Customs and Border Protection

Mr. Patrick J. Lechleitner
Deputy Director and Senior Official Performing the Duties of the Director
U.S. Immigration and Customs Enforcement

Dear Secretary Mayorkas, Mr. Miller, and Mr. Lechleitner:

I write with serious concerns about the dire situation at our nation's Southern Border. Publicly released records from the U.S. Customs and Border Patrol (CBP) obtained through Freedom of Information Act (FOIA) litigation shine a light on the extent of the Biden Administration's abject failure to protect American citizens and this country's national security interests.¹ Specifically, CBP records from May 2021 through August 2023 reveal nearly 250,000 foreign nationals—from 97 countries—have been paroled into the United States at border land ports after scheduling crossing appointments with the CBP One mobile phone app (CBP One).² This number includes roughly 7,332 Special Interest Aliens (SIAs) from 24 countries designated as a national security concern because of their Islamic terrorist activities, including Turkey, Iran, Afghanistan, Lebanon, and Syria.³ These immigrants are considered inadmissible but the Biden

³ Todd Bensman, *Thousands of 'Special Interest Aliens' Posing Potential National Security Risks Entering via CBP One App*, CENTER FOR IMMIGRATION STUDIES (OCT. 24, 2023) (The Center for Immigration Studies FOIA data shows SIAs were admitted through the CBP One app into the U.S. from May 2023 through August 2023 as follow: Kyrgyzstan-3,852, Azerbaijan-244, Kazakhstan-339, Tajikistan-780, Uzbekistan-1,843, Afghanistan-154, Turkey-

Administration has decided to allow them entry under humanitarian parole anyway via CBP One, in what appears to be a blatant effort to circumvent our nation's immigration laws.

Reports have revealed the White House and the Department of Homeland Security (DHS) misled the American public by advertising CBP One as a new program in January of 2023; however, newly released FOIA data shows the Biden Administration started it almost two years ago.⁴ The Biden Administration has emphasized the primary beneficiaries of CBP One are Venezuelans, Nicaraguans, Haitians, and Cubans, processed through humanitarian parole.⁵ Yet, the newly released CBP One data reveals 100,000 are from an expansive array of 93 other countries, including 24,000 Russian and over 57,000 Mexican nationals.⁶ This is especially puzzling since Mexican nationals are rejected from asylum into the United States at an almost 96 percent rate.⁷

The number of SIAs entering the United States raises obvious national security concerns, which even the Obama-Biden Administration recognized stating "SIAs may consist of those who are potential national security threats to our homeland."⁸ However, under the Biden Administration's DHS, it appears CBP One is being used to intentionally invite SIAs into the United States without undergoing previously required national security vetting procedures, such as contacting the National Targeting Center for records checks, enrolling SIAs into various biometric identification systems, and contacting the Federal Bureau of Investigation (FBI) Joint Terrorism Task Force for follow-on interviews.⁹ These vetting procedures are especially important because many "paroled immigrants are released on their own recognizance, signing an agreement to report to an Immigration and Customs Enforcement (ICE) office in the town of

their choice and apply for two-year renewable work permits.”¹⁰ Upon release, it is practically impossible to track all immigrants and ensure their compliance with parole requirements.

Moreover, there are serious questions about whether SIAs can even be properly vetted before entering the U.S., as background check databases may come up empty if an individual has not been arrested by U.S. law enforcement or is not known by U.S. intelligence agencies. These knowledge gaps are made increasingly worse in cases where countries do not share intelligence information with the U.S. or lack technical capabilities to keep track of criminals or terrorism intelligence information.¹¹ Simply put, the Biden Administration is allowing people to enter this country without knowing who they are. Even when the Biden Administration knows and understands a person’s background, it has released a migrant on the terrorist watchlist without conducting the proper interviews.¹² According to a DHS Office of Inspector General (OIG) report on the matter, “CBP apprehended and subsequently released a migrant without providing information requested by the Terrorist Screening Center (TSC) that would have confirmed they were a positive match with the Terrorist Watchlist.”¹³ When the migrants’ identity was eventually verified, ICE also faced information sharing failures when planning and conducting their arrest, which took two weeks to accomplish.¹⁴

Further, a memo dated October 20, 2023, from the CBP San Diego Field Office’s intelligence unit warns “individuals ‘inspired by, or reacting to, the current Israel-Hamas conflict may attempt travel to or from the area of hostilities in the Middle East via circuitous transit across the Southwest border’” and “foreign fighters motivated by ideology or mercenary soldiers of fortune may attempt to obfuscate travel to or from the US to or from countries in the Middle East through Mexico.”¹⁵ All of this demonstrates the Biden Administration has overseen and is responsible for the chaos at our Southern Border and the collapse of our nation’s immigration laws.¹⁶
